STUDENT IN BIOINFORMATICS

EDUCATION AND TRAINING

2008-2009	Currently studying for my fourth year of a five-year university diploma in Health and People, Bioinformatics speciality, in Lyon, FRANCE.
2007-2008	Successfully obtained a professional three-year university diploma in Computer Science and Databases, in Clermont-Ferrand, FRANCE.
2005-2007	Successfully obtained a second year of a two-year university diploma in Computer Science, in Clermont-Ferrand, FRANCE.
2005	Successfully obtained French Baccalauréat – equivalent to A levels in Science with distinction.

WORK EXPERIENCE

March-June 2009	15 weeks training within the EBI (<i>European Bioinformatics Institute</i>) in the NET team (<i>Nutrigenomics, Environmental genomics and Toxicogenomics</i>). Development of a programmatic access to the Bioinvestigation Index using web services.
April-July 2008	17 weeks training within the LPC (<i>Laboratoire de Physique Corpusculaire</i>) in the PCSV team (<i>Plate-forme de Calcul pour les Science du Vivant</i>). Development of a bioinformatics platform and bioinformatics tools on computing grid.
April-June 2007	10 weeks training within the Arthurman SARL group in Clermont-Ferrand, FRANCE. Development and improvement of an Intranet, using PHP object, PHP templates and the AJAX technology.
August 2006 and 2007	Leader in a camp site for adults and children. It taught me to be helpful and very friendly because I had to get along well with many people and meet different people every week.
2005-2008	Private lessons in Maths, Physics and English for children between 13 and 16 years old.
2005-2008	Leader in a scout organisation called EEDF (<i>Eclaireuses et Eclaireurs de France</i>), taking care of children between 6 and 11 during one year and then for children between 11 and 15 during one year and last for children between 15 and 17 years old. I also worked as a voluntary summer camp assistant.

COMPUTING SKILLS

Operating systems	Windows, Linux, Windows Mobile, Symbian OS.
Databases	Oracle, MySQL, SQLServeur, DB2.
Methods	Merise, Analyse Objet, UML, SADT.
Programing languages	Java, C, C#, PHP, PHP 5, JavaScript, SQL, Shell, XML, HTML, CSS.
Applications	Dreamweaver, Maple, Eclipse, Visual Studio, IntelliJ, computing grids, R, Soap UI, Jax-ws.

LANGUAGES

French	Native speaker
English	Intermediate - European level B2 (August to November 2003: stay in Ontario, CANADA / TOEIC : 960/990)
